# Transaxle Ltd Catalogue

## THE COMPANY

Transaxle Ltd is a family business consisting of 20 employees. The company was setup in Walsall, West Midlands by Roy Meddings back in 1986 after leaving his job as Rockwell Sales Manager. Leisa Meddings is accounts manager and his son Johnathan Meddings is sales/warehouse manager.

## QUALITY

Transaxle take great pride in the quality of their calipers and have worked hard at producing a good quality remanufactured calipers. All our brake calipers are fitted with new pistons, guide pins and seals kits. Each caliper comes with a one year warranty. All our brake calipers are tested on a test rig and then date stamped. All our castings are electro plated to give a better salt spray protection.

## DELIVERY

DPD/TNT are our UK couriers. The cut off for TNT is 3.45pm and the cut off for DPD is 4.45pm  
DPD Next day is £7.50, Before 12pm is £15, Before 10am is £25, SAT is £25, SAT B4 12pm is £31.50  
TNT Next day is £15.00, Before 12pm is £23.50, Before 10am is £30, SAT is £34, SAT B4 12pm is £42.00

## OUR RANGE

We stock a huge range of commercial vehicle brake calipers and repair kits. Our range includes both air and hydraulic operated calipers covering van, truck, trailer, bus and off road brake calipers and components. We mainly sell remanufactured calipers but can also offer a competitive rate for new. We also offer same day recon and return service in the West Midlands and the UK for any oddball units or out of stock part numbers.

## OLD CORE RETURN

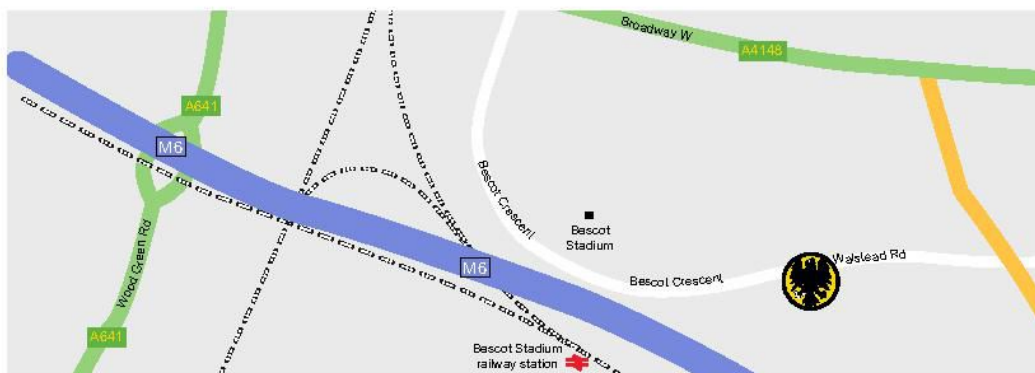

Our policy is that we collect old calipers free of charge once a minimum of three plus old units are ready to be returned for credit. For less than five calipers we ask you to box each caliper individually making sure it's securely packed and we will send Parceline in to collect them. For more than five calipers we ask you to scrap them to a pallet and we will send palletine in to collect. Please make sure you always send returns notes.

- 1) All units must be returned as originally supplied, like for like.
- 2) Calipers must be complete and fully assembled with no missing parts
- 3) Customers are responsible for the return of old units and therefore should pay extra attention to suitably packing returns to avoid damage or loss during transit.
- 4) Old units should be returned within 90 days of the date of purchase.

## FINDING US

We are based 3 minutes drive from junction 9 on the M6, it's on the same road as Walsall Football Club Stadium and Bescot train station, see map for further details.

Our opening hours are 9 am to 5 pm Monday to Friday, for sales of brake calipers please call **01922471300** or alternatively email us on [meddings@transaxle-ltd.co.uk](mailto:meddings@transaxle-ltd.co.uk)

## Acceptance criteria for returned old core calipers

---

1. The returned dismantled part (core) must be an equivalent of the purchased caliper encompassed by the TR form of sales and it is recommended to deliver it back in the box of the purchased caliper. In case of lack of original packaging, the returned part must be labelled and described appropriately.
2. According to the regulation on environment protection, the cores should be secured and packaged in such a way that they do not pollute the environment. From the dismantled parts ( especially Hydraulic Calipers) you should remove the brake fluid agent remaining in them, where possible, and the inlets should be stopped with plugs or put in a plastic bag and sealed.
3. In order to be accepted, a part must be complete, not disassembled and must meet the below specified technical requirements.
  - A. The caliper body may not be cracked, broken or deformed.
  - B. The calipers should be complete and not disassembled into parts, or have any parts missing.
  - C. The model of the returned caliper core must be the same model as that purchased; however, it does not have to be the same part number or side.
  - D. Models similar to those purchased, but are slow moving or obsolete applications will not be accepted.
  - E. Any sharp edges/corners should be removed to prevent cuts when handling core.
  - F. Customers are responsible for the return of old units and therefore should pay extra attention to suitably packing returns to avoid damage or loss in transit.
  - G. Old units should be returned within 90 days of the date of purchase, otherwise immediate payment is required.

## MERITOR

### DX.195.51/52 Types

Description	Boots, Caps & Screws
Transaxle Ref.	<b>TRX104</b>
Maker	Meritor
OR Kit No	MCK1192
Application	DX.195.51/52

Description	Stabilizer Bar
Transaxle Ref.	<b>TRX11319</b>
Maker	Meritor
OR Kit No	-
Application	DX.195.51/52

Description	LH Adjusting Mechanism
Transaxle Ref.	<b>TRX11391</b>
Maker	Meritor
OR Kit No	DSL5L
Application	DX.195.51 left hand

Description	RH Adjusting Mechanism
Transaxle Ref.	<b>TRX11392</b>
Maker	Meritor
OR Kit No	DSL5R
Application	DX.195.52 right hand

Description	Bridge & Tubes
Transaxle Ref.	<b>TRX11402</b>
Maker	Meritor
OR Kit No	DSL6L
Application	DX.195.51 left hand

Description	Bridge & Tubes
Transaxle Ref.	<b>TRX11401</b>
Maker	Meritor
OR Kit No	DSL6R
Application	DX.195.52 right hand

Description	Push Plate (left)
Transaxle Ref.	<b>TRX11383</b>
Maker	Meritor
OR Kit No	-
Application	DX.195.51 left hand

Description	Push Plate (right)
Transaxle Ref.	<b>TRX11393</b>
Maker	Meritor
OR Kit No	-
Application	DX.195.52 right hand

Description	Bridge & Inner Bearing
Transaxle Ref.	<b>TRX11458</b>
Maker	Meritor
OR Kit No	-
Application	DX.195.51/52

Description	6 HOLE
Transaxle Ref.	TRX11406

### MARK 4

Description	4 HOLE
Transaxle Ref.	TRX11414

Description	6 HOLE
Transaxle Ref.	TRX11416

## HOW TO IDENTIFY KNORR CALIPERS

### Step 1

Knorr calipers are handed depending on which side the brass bush is on. On the example the brass bush is on the left hand side of the caliper.

### Step 2

On SB7 calipers where the air chamber bolts on, we call this the lip and there are different variations of angles. Shown below are the two main angles: flatback with 0 degrees or angledback with a 12 degree angle.

Flatback 0 degrees

Angleback 12 degrees

### Step 3

Knorr calipers come with a three splined pad wearing indicator or without one. Most trailer calipers are no sensor and most trucks are with a sensor but is not always the case, there are exceptions to this rule.

with sensor

without sensor

## HOW TO IDENTIFY MERITOR D ELSA 2 CALIPERS

### Step 1

The adjuster changes position depending on whether the caliper is N/S or O/S. On the caliper on the image the adjuster is on the right hand side.

### Step 2

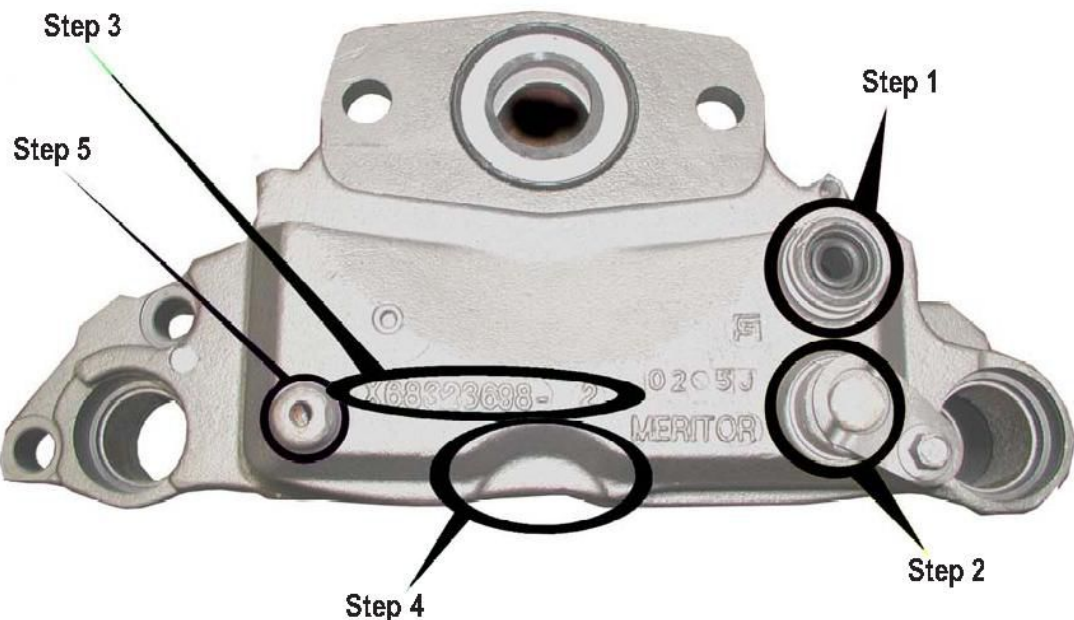

The sensor hole is mainly for trucks, for example MAN TGA or ERF. This is to tell you whe your pads are low.

### Step 3

Cast Number helps to identify which caliper body you have. This Number will always be in the same position

### Step 4

Some D ELSA 2 Calipers have what we call a Half Moon Dip. The caliper on the image has one but not all do, some have a straight back edge minus the Dip.

# Old Core Calipers Wanted for Cash

Description | D ELSA - Mark 1  
Application | MAN F200

**£40 good condition**

**£30 otherwise**

Description | D ELSA - Mark 2  
Application | MAN TGA

**£40 good condition**

**£30 otherwise**

Description | Expanders Perrot  
Application | Imperial + Metric

**£15 good condition**

**£10 otherwise**

Description | D2 Caliper  
Application | Dennis Javelin

**£40 good condition**

**£30 otherwise**

Description | DX195 Caliper  
Application | ROR

**£30 good condition**

**£20 otherwise**

Description | KNORR Calipers  
Application |

**£35 with pad sensor**

**£25 without sensor**

Description | D3 Caliper  
Application | MAN F2000

**£40 good condition**

**£30 otherwise**

Description | D LISA Caliper  
Application | Dennis/Renault

**£40 good condition**

**£30 otherwise**

Description | DAF 55 Caliper  
Application |

**£40 good condition**

**£30 otherwise**
